

Wit and Humor.

GENERAL HOUTON'S PRESCRIPTION.—Among the guests at the general office during the past week, a Houston, of Texas, well known, as all his acquaintances in that part of the world are, called "P. B.," perfect Deosticks, a good-natured but soft-headed chap, a regular bull holder, cornered him the other day at his hotel. He had managed to be introduced to him by a gentleman the day previous.

"General," said the bore, after he had bothered Mr. Houston, of all patience, "I wish you would do me one more favor. A man of your eminence is so competent."

"Well, what is it?" inquired Mr. Houston rather curiously.

"Never mind that, what do you want to know?"

"Excuse me, but a person of your abilities and distinction must be aware—"

"I am somewhat in haste," interrupted the badgered Senator—"pray come to the point at once."

"Well, then, give me the secret of your success in life, how you rose in position as you have done."

"Ah! but that wouldn't benefit you any. I can tell you how you can rise in the world if you wish."

"That's just it," was the reply—"just what I was trying to get at."

"Well, sir, I'll tell you. Undertake to approach a sore headed bull with a red scarf on your neck. I'll guarantee your upward progress immediately on the completion of the experiment."

The button holder collapsed, showed his hat on his head and walked sorrowfully away, while a cluster of gentlemen near by, who had overheard the conversation, fairly screamed with laughter.

SHARP SHOOTING.—A couple of youngsters met and passed the compliments of the season.

"Bob," said one, "have you seen Hall?"

"He's been looking for you all the morning."

"Hall? what Hall?" asked Bob.

"Why, Alvo-Hall, you fool."

"Show," rejoined Bob, "that's a poor joke, and you would not have caught me if I hadn't got hurt last night when John tripped me up."

"John who?" queried Dick.

"Why, Dem-John, you greeny."

CHILDREN REPART.—Said a Sunday School teacher, "remember, dear children, that God is everywhere," the words had hardly escaped his lips when a roguish looking little fellow rose up and said to the teacher:

"Please, sir, did you say that God was everywhere?"

"Yes, my son, everywhere."

"Is he in my pocket?"

"Yes."

"Well, I guess I've got you there," was the triumphant retort, "because I haven't got any pocket."

CURE.—At Lafayette, Indiana, the other day, an encampment of "copper-colored critters" became so disgusted or tired at the constant staring and "poke-nose" operations of a crowd of female pale-faces, that the old chief raised up his head to attract the notice of all, and exclaimed in his best English—"Yuh! one Juhn got small pore!"

The pale faces mizzled, and the old man laughed, "Hoo! hoo!" in a very loud voice.

Mr. Jones, after having spent an evening over his bowl, went home a little "how come you so?" He was fortunate enough to find his better half asleep. He went to bed, and after a moment's consideration, he thought it would be best to turn over, lest his breath should betray him; when Mrs. Jones opened her eyes, and in the mildest manner in the world said "Jones, you needn't turn over, you're drunk clear through!"

Not long since a youth, older in wit than years, after being catechized concerning the power of God, said:

"Ma, I think there's one thing God can't do."

"What is it, my son?" eagerly enquired the mother.

"God can't make Alf Jones's mouth any bigger without setting his ears back."

"X on can do any thing if you have patience," said an old uncle, who had made a fortune, to a nephew who had nearly spent one. "Water may be carried in a sieve, if you can only wait." "How long?" asked the petulant spendthrift.

"As long as Kate."

"No, sir-ee. Do I not love you better than anything else?"

"My goodness, gracious! I should think so—what a fool you are, John."

"Why so, Kate?"

"Why, No sir-ee, means yes."

Scene closes—John in an enviable position.

A BRIGHT RUSTIC.—A few days since a countryman came to town at Lowell, Mass., and going to the post office with a bank bill, called for a dollar's worth of postage stamps. The clerk wanted specie, and he straightway returned with four Spanish quarters, and these being also denied admittance, except at a discount, he came a third time with a hundred coppers, and a very copperish look of exultation. Being informed by the official behind the window that coppers were not a legal tender to a larger extent than three cents at a time, the man from the rural districts could not purchase a single stamp, and repeated the operation till his persecutor cursed and took in the remaining cents in a lump.

FREDERICK

Female Seminary,
FREDERICK CITY, MD.

Scholars will be received at any time during the year, and will be charged from the date of their entrance to the end of the following year. The 1st of January would be a most appropriate time for them to commence.

This Institution has steadily and permanently increased in numbers for the last eleven years, until the present capacious edifice, which is 90 feet front, 90 feet deep, 4 stories high, became entirely inadequate to the growing wants of the school.

August last, the Trustees commenced an entire rebuilding of the same size and external appearance on the west side of the present edifice. This building is now under roof and will be ready for occupancy in the spring.

This addition will give us the largest and most beautiful exhibition room in the city, 3 large professors' rooms, 18 additional airy, lodging rooms, and the whole of the high basement will be fitted up for a gymnasium for the young ladies to exercise in during inclement weather. These improvements make it one of the most extensive and complete establishments in the United States.

This Institution has an able and efficient Board of Professors and Teachers, a good Library, excellent Musical Instruments, an extensive Chemical and Philosophical Apparatus, and it is confidently believed that it offers as many facilities for imparting a thorough, extensive and refined education as any Seminary in the land.

The Seminary is situated on a beautiful and healthy site, and is surrounded by a large and fertile farm, which is cultivated by a large number of negroes, who are well treated and well paid.

For Board and Tuition, including furnished room, lights, fuel, washing, etc., \$200 per year. For day scholars, \$100 per year. For circulars and other particulars, address H. WINCHESTER, President.

December 19, 1856.

POTOMAC SEMINARY.

THE exercises in the male department will be resumed on Thursday, September 18th, 1856. The terms are heretofore for a quarter of eleven weeks.

1st GRADE.—Learning to Read & Spell. \$3 00
2nd GRADE.—Reading, Spelling, Learning to Write and the fundamental principles of Arithmetic, Grammar and English Composition. \$3 00
3rd GRADE.—Grammar, Geography, Arithmetic, with Exercises in Reading, Spelling, defining words, and English Composition. \$3 00
4th GRADE.—Belles Lettres, Philosophy, Chemistry, and the usual studies for advanced classes of females in text books fitted for female schools. \$6 00
5th GRADE.—Greek and Latin languages, and the various branches of Mathematics, as Geometry, Surveying, Algebra, &c., required to fit boys for College or any profession. \$9 00
Music on the Piano \$10 00 per quarter. Drawing, \$3 00 per quarter; French \$6 00 per quarter.

Those of higher grades are exercised in any branches of the lower ones, as well as in the higher ones. Tuition paid at the end of the quarter, five per cent. discount on bills paid at the commencement of the quarter. Entrance fee, at the beginning of each quarter, 25 cts., for pencils, pens, ink, fire, &c.

The Principal desires an interview with the parents or guardians, at, or before, the time of enrollment.—Parents are expected to attend public worship regularly; and unless other arrangements are made by the parents or guardians, they will attend with the principal.

Enrollment may be had in pleasant families at \$25 00 per quarter, including board, washing, and such other expenses as may be required, which can be secured at \$2 00 per quarter, unless the quantity be unusually large.

ROMNEY, August 8, 1856.

By P. S. The MALE DEPARTMENT of the Institute will be opened on Monday next, Oct. 22d, by C. S. Hart, a graduate of the Virginia Military Institute.

By Order of Visitors.
A. W. KERCHVAL,
Secretary, pro tem.

ROMNEY, Oct. 17, 1856.

GEORGE PAGE & CO'S,
IMPROVED PATENT
CIRCULAR SAW MILLS.

THE undersigned are prepared to execute all orders for their justly celebrated CIRCULAR SAW MILLS, GRIST MILLS AND STEAM POWERS.

With the utmost despatch. They make three classes or sizes of Saw Mills, and all sizes and kinds of Steam Powers as stationary and portable. Among their PORTABLE ENGINES, is one that was expressly gotten up for plantation and farm purposes, and is emphatically a

PORTABLE ENGINE.

It is often more compact, and for compactness, design, material, workmanship, efficiency, and ease of travel, is unequalled. The Engine, Boiler, Smoke Stack, governor and valves, are all mounted on a substantial set of wooden wheels, with tongue attached, ready to be hauled by a team of horses, to which it may be hauled anywhere and at all the economical purposes of the plantation or farm, it is the perfect and grinding, thrashing, &c. It can be hauled by 4 or 6 horses.

A Pamphlet and Cut, containing full descriptions, will be sent to any gentleman applying for one by letter.

GEORGE PAGE & CO.,
KUYENDALL & SHERRARD,
January 9, 1857.

GRATIS! GRATIS! GRATIS!!!

A FREE GIFT TO ALL MISERY RELIEVED.

"NATURE'S GUIDE," a new and popular work, is distributed without charge, and forwarded by mail, that the Post Office in the U. States, on receiving an order enclosing two stamps for postage.

AFFLICTED READ!! PHILADELPHIA MEDICINE HOUSE—Established 20 years ago by Dr. KINKELIN, Corner of Third and Union-Sts., between Spruce and Pine, Philadelphia, Pa.

INVAIDS Are appraised that Dr. KINKELIN's medicine, which practices to particular branches of medicine, which engages his undivided attention. He cautions the unfortunate against the abuse of mercury: thousands are annually ruined by the use of this. Recent affections are promptly extinguished.

Twenty Years of Experience In the treatment of a class of diseases hitherto neglected and imperfectly understood, has enabled Dr. KINKELIN, (Author of a work on Self-Preservation,) to prove that nine tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality.

MARRIAGE Requires the fulfillment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—in low many could it be traced to sexual indiscretions! Apply then while it is yet time, in order to have your marriage and relaxed organization rebraced, revived and strengthened.

REMEMBER. He who places himself under Dr. KINKELIN'S treatment may religiously confide in his honor as a gentleman, and rely upon the assurance that his secrets of Dr. K. K. patients will never be disclosed.

Young man! do not false modesty deter you from making your case known to one who, from education and respectability, can certainly befriend you.

Too many think they will conceal the secret in their own hearts, and cure themselves. Alas! ignorance is this a fatal delusion, and how many promising youths, who might have been an ornament to society, have fallen victims to this error.

Strictures of the urethra are rapidly removed by the application of a new therapeutical agent, Dr. K. Weakness and constitutional debility promptly cured, and full vigor restored.

COUNTRY INVALIDS Can have (by stating their case explicitly, to the Editor) Dr. K. K.'s medicine, appropriate accordingly.

Forwarded to any part of the United States, unexpended secure from DAMAGE or CURIOSITY.

READ! YOUTH AND MANHOOD. A VIGOROUS LIFE, OR A PREMATURE DEATH.

KINKELIN ON SELF-PRESERVATION. 15 cts. or 25 cts. per copy, by mail, prepaid, per return of mail.

Left, (enclosing a remittance) and be cured at Dr. K. K.'s Dispensary, 25 cts. or 50 cts. per copy, by mail, prepaid, per return of mail.

REMEMBER. Dr. KINKELIN'S residence has been for the last twenty years at the N. W. Corner of Third and Union Streets, Philadelphia, Pa. [July 11.]

COMMERCIAL COLLEGE. Nos. 99 and 101 Baltimore Street.

K. K. CHAMBERLIN—President and Lecturer on Commercial Science.

K. LOSIER—In charge of Writing Department.

W. KEMP—In special charge of Mercantile Calculations, and Associate in Bookkeeping.

J. PHILLIPS—Instructor in Bookkeeping.

T. WILLIAMS, Esq.—Lecturer on Commercial Law.

Two years have not yet elapsed since the establishment of this Institution, during which time of eight hundred students have been in attendance, (representing nearly every State in the Union,) among whom are numbers in Baltimore, and elsewhere, occupying prominent positions as business men and accountants.

COURSE OF STUDY. BOOKKEEPING.—The Principal has the utmost confidence in assuring the public, after an experience of fourteen years in qualifying young men for the counting room, and other mercantile positions, and an extensive acquaintance with the management of business books of every description, that the course of training in the department is eminently practical, and well adapted to the various pursuits of Commerce and Trade.

Individual Partnership, Mercantile, Manufacturing, Commission, Exchange, Banking, Steamboat, Compound, Compound, Compound, &c., &c.

MASTERY.—The exercises under this head are extensive and embracing rapidity of calculation with beauty of construction, thus enabling student to write an elegant business book completion of the course.

ALGEBRA.—The exercises under this head are delivered upon the Science of Algebra, Mercantile Customs, &c., these, in connection with a course of instruction in the business of the day, will enable the student to perform the most difficult and important duties of the business world.

PERSONS desirous of placing their children at this Institute during the present session, should do so without delay, as the pupils will be received at any time, and charged from the time of admission to the end of the session.

ROMNEY, August 8, 1856.

A RESISTLESS REMEDY.

Are curing the Sick to an extent never before known of any Medicine.

INVALIDS, READ AND JUDGE FOR YOURSELVES.

THE venerable Chancellor WARDALE writes from Baltimore, 15th Nov. 1856.

"I am happy to say of your Catarrhic Pills, that I have found them a better family medicine, for common use, than any other with which I am acquainted. Many of my friends have realized marked benefit from them, and they are not only effective, but safe and pleasant to be taken, and they are the only medicine which I have found to be so effective, when they are known."
